Environmental & Occupational Health and Safety (EOHS) Policy

We are committed to ensuring environmental protection and a safe, healthy workplace in all our lead battery recycling operations.

Our Key Commitments:

1. Environmental Protection:

- Minimize pollution and waste through efficient resource use.
- Ensure air, water, and soil are protected through proper emission and waste controls.
- Comply with all environmental regulations.

2. Occupational Health & Safety:

- Provide a safe working environment with adequate PPE and ventilation.
- Regularly monitor lead exposure and conduct health check-ups.
- Promote safety awareness through training and emergency preparedness.

3. Legal Compliance:

- Follow all applicable EOHS laws and standards.
- Maintain records and ensure regular audits.

4. Continuous Improvement:

- Set and review EOHS objectives.
- Involve employees in improving workplace safety and environmental performance.

This policy is communicated to all staff and stakeholders and is reviewed periodically for effectiveness.
